Description

We found this [packet capture](#). Recover the flag.

Sama seperti sebelumnya, kami diberi file yang bisa dibuka di wireshark.

The screenshot displays a Wireshark interface with a packet capture. The packet list on the left shows several packets, including SSDP M-SEARCH, LLNMR, and ARP. The packet details pane on the right shows the selected packet (Frame 1) is an SSDP M-SEARCH packet. The packet bytes pane at the bottom shows the raw data of the packet.

No.	Time	Source	Destination	Protocol	Length	Info

Karena pada clue terdapat clue untuk follow stream jadi awalnya kita ke page statistics. Kemudian ke conversations dan kita pilih yang udp dan kita follow stream. Kemudian pada bagian bawah kiri terdapat menu stream. Jadi kita bruteforce masing-masing dan mencari stream per stream dan pada stream 6 muncul page seperti ini

```
picoCTF{StaT31355_636f6e6e}
```
